

# SIGMA 10 & 11

**ZERO EMISSION, ZERO COMPROMISE**

## THE SIGMA FAMILY

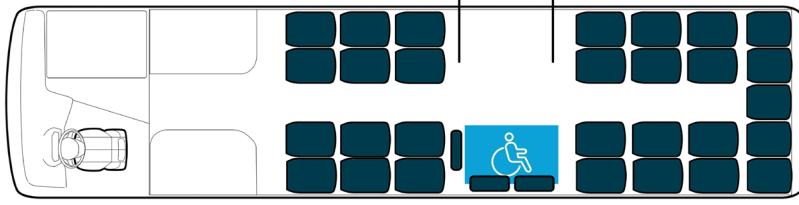

- British Design & Engineering
- Durability Tested at UTAC Millbrook
- Premium OEM parts
- Widths & Lengths for all operating environments
- Developed with customers in the UK & Europe
- Stainless Steel construction
- CATL Cobalt-free batteries

The Sigma family offers one of the largest ranges of low-floor battery-electric buses from any manufacturer in Europe

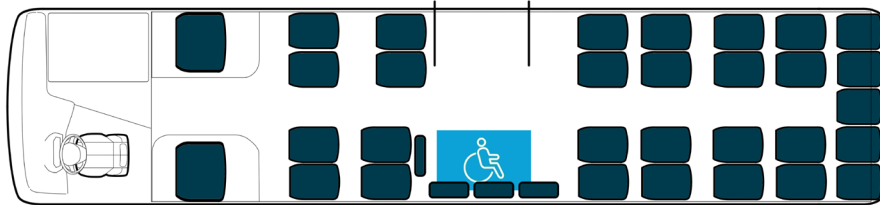

The range includes six models, from 7 to 13-metres, with GVWs from 9 to 19.5-tonnes, and the passenger capacity from 33 to 87.

Sigma represents a re-definition of public transport; a zero-emission, zero compromise solution, from a trusted, UK bus manufacturer.

## TYPICAL SIGMA 10 LOW FLOOR LAYOUT

## TYPICAL SIGMA 11 LOW FLOOR LAYOUT

## SIGMA 10 & 11 KEY FEATURES

	SIGMA 10	SIGMA 11
Capacity	35 seated / 35 standees	34 seats / 50 standees
Overall length (mm)	10250	10990
Overall width (mm)	2505	2530
GVW (kgs)	16500	19500
Battery chemistry	LFP (CATL)	
Battery capacity (kWh)	210 / 255	385
Range (kms)	Up to 330	Up to 400
Charging	2 x sockets DC	
Heating & cooling	Air Conditioning to cab & saloon Heated windscreen	
Doors	2 doors	
Accessibility	Manual ramp at rear	
Tyre size	285/70 R19.5	275/70 R22.5
